

**FIRM OVERVIEW**

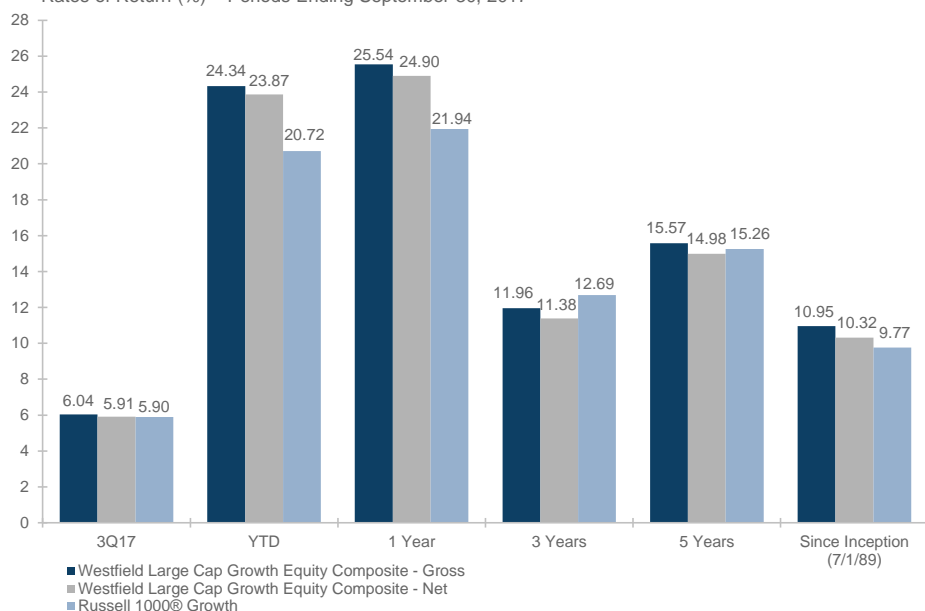

WESTFIELD CAPITAL MANAGEMENT COMPANY, L.P. is a 100% employee-owned, U.S.-based investment advisor dedicated to providing quality investment management services to institutions and wealthy individuals with \$13.5 Billion in assets under management.

**PHILOSOPHY & APPROACH**

- Westfield employs a growth at a reasonable price (GARP) investment style favoring investments in companies with underappreciated earnings growth trading at reasonable valuations based on our belief that:
  1. Stock prices ultimately follow earnings growth, and;
  2. Fundamental research best identifies inefficiencies and investment opportunities.
- We utilize a team approach within a disciplined investment process that enables our analysts to impact portfolios.
- Our Investment Team's experience, extensive research, and first-hand knowledge of company operations derived through on-site visits and meetings with management provide our competitive edge.

Index: Russell 1000® Growth

The **Large Cap Growth Equity Composite** contains fully discretionary accounts that focus on long-term growth in equity securities of predominately Large Cap companies (capitalization of more than \$6 billion at initial purchase) with potential for growth. There is no minimum account size for this composite. Prior to January 1, 2007, the minimum account size for this composite was \$1 million. For comparison purposes, the composite is evaluated against the Russell 1000® Growth index, which is designed to measure the domestic Large Cap growth equity segment. Previously, the Russell 1000® index was included as a secondary benchmark; however, it is no longer considered applicable. Index returns are not covered by the report of independent verifiers and are provided for informational purposes only. The index returns assume the reinvestment of dividends but do not reflect the impact of fees, applicable taxes or trading costs which may also reduce the returns shown.

Westfield Capital Management Company, L.P. claims compliance with the Global Investment Performance Standards (GIPS®) and has prepared and presented this report in compliance with the GIPS® standards. Westfield Capital Management Company, L.P. has been independently verified for the periods from January 1, 2000 through December 31, 2015. Verification assesses whether (1) the firm has complied with all the composite construction requirements of the GIPS® standards on a firm-wide basis and (2) the firm's policies and procedures are designed to calculate and present performance in compliance with the GIPS® standards. The Large Cap Growth Equity Composite has been examined for the periods from January 1, 1993 to December 31, 2015. The verification and performance examination reports are available upon request.

Westfield Capital Management Company, L.P. is a registered investment adviser. Registration does not imply a certain level of skill or training. The firm's list of composite descriptions is available upon request. Past performance is not indicative of future results. The performance of any individual account may vary from the composite performance provided above.

The U.S. Dollar is the currency used to express performance. Both gross and net returns reflect the deduction of transaction costs and the reinvestment of income. Gross returns do not reflect the deduction of investment advisory fees or any other expenses that may be incurred in the management of the account. Net performance was calculated using actual management fees except for accounts that were charged a performance based fee; net performance for these accounts was calculated using the highest management fee of 0.65%, applied monthly. The three-year annualized standard deviation measures the variability of the composite and the benchmark returns over the preceding 36-month period. The three-year annualized standard deviation is not presented for 2002 through 2010 because the disclosure is not required for periods prior to 2011. The annual composite dispersion presented is an asset-weighted standard deviation calculated for the accounts in the composite the entire year. Policies for valuing portfolios, calculating performance, and preparing compliant presentations are available upon request. Beginning January 1, 2010, accounts with significant cash flows (defined as exceeding 50% of an account's total assets) are taken out of the composite for the month during which the cash flow occurred.

The Large Cap Growth Equity Composite was created January 1, 2000. The management fee schedule for this composite is 0.65% on the first \$25 million; 0.60% on the next \$25 million; 0.55% on the next \$25 million; 0.50% on amounts exceeding \$75 million. Actual investment advisory fees incurred by clients may vary.
