

FIRM OVERVIEW

WESTFIELD CAPITAL MANAGEMENT COMPANY, L.P. is an employee-owned, U.S.-based investment advisor with \$14.5 Billion in assets under management.

FUND OBJECTIVE

The Fund seeks long-term growth of capital by investing in a relatively concentrated portfolio of primarily large capitalization companies with a history or prospect of paying stable or increasing dividends.

PHILOSOPHY & APPROACH

- Westfield employs a growth at a reasonable price (GARP) investment style favoring investments in companies with underappreciated earnings growth trading at reasonable valuations believing that:
 - Stock prices ultimately follow earnings growth, and;
 - Fundamental research best identifies inefficiencies and investment opportunities.
- We believe that dividend policy is one of the clearest indicators of a management team's confidence in the future growth prospects of their business and we think the total return potential offered by companies both growing earnings and increasing dividends is attractive.
